ABOUT US

Hillsboro Ohio Pride began in 2020, soon after the unjust killing of George Floyd. As we began seeing more and more injustices around the world for minorities, we realized it is so very important to do our part, especially in rural areas such as Hillsboro, Ohio.

Hillsboro Pride was then formed and today in 2026, it is the strongest it has ever been. We seek to provide inclusivity, safety, belonging, and acceptance for all communities, serving not only Hillsboro but also individuals and families from surrounding rural counties who may not otherwise have access to Pride spaces.

HILLSBORO PRIDE'S VISION

At Hillsboro Pride Ohio we are more than an event, we are a movement. We seek to create inclusive and accepting spaces where individuals feel they can live and work authentically. We partner with local businesses and organizations, local government, and non-profits both locally and abroad in our efforts to educate and foster community. Our goal is that all who live in, work in, or visit our community will find a place that is welcoming to all regardless of sexual orientation, gender identity, or expression. It is through collaboration that we will succeed in making Hillsboro a home for rural pride.
